SAFETY DATA SHEET

trans-Resveratrol 98%

1. Identification

Product identifier	**trans-Resveratrol**
Botanical source	*Polygonum cuspidatum* root
CAS No. / Country of Origin	501-36-0 / China
Molecular formula / weight	C14H12O3 / 228.24
Relevant use	Raw material for dietary-supplement manufacture (industrial / professional use).
Supplier	Chengdu PNP Biotech Co., Ltd.

2. Hazards Identification

GHS classification: Skin irritation (Category 2); Eye irritation (Category 2); Specific target organ toxicity, single exposure (Category 3); Hazardous to the aquatic environment, long-term / chronic (Category 4).

GHS pictograms: GHS07, GHS09. Signal word: Warning.

Hazard statement	**H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation. H413 May cause long lasting harmful effects to aquatic life.**
Precautionary statement	P261 Avoid breathing dust. P264 Wash hands thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P273 Avoid release to the environment. P280 Wear protective gloves, protective clothing, eye protection and face protection. P302+P352 IF ON SKIN: wash with plenty of soap and water. P304+P340 IF INHALED: remove person to fresh air. P305+P351+P338 IF IN EYES: rinse cautiously with water for several minutes; remove contact lenses if present and easy to do; continue rinsing. P332+P313 If skin irritation occurs: get medical advice or attention. P337+P313 If eye irritation persists: get medical advice or attention. P501 Dispose of contents and container in accordance with applicable regulations.

Fine dust may form a combustible dust atmosphere; avoid dust formation and ignition sources. No other hazards result in classification.

3. Composition / Information on Ingredients

Substance	**trans-Resveratrol**
Purity	≥ 98.0% (on dried basis)
CAS No.	501-36-0
Hazards	See Section 2

4. First-Aid Measures

Inhalation	**Move person to fresh air. If breathing is difficult, give oxygen. Seek medical advice if symptoms persist.**
Skin contact	Wash off with soap and plenty of water. Remove contaminated clothing. Seek medical advice if irritation develops.
Eye contact	Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Seek medical advice if irritation persists.
Ingestion	Rinse mouth with water. Never give anything by mouth to an unconscious person. Seek medical advice.

Most important symptoms: skin irritation and serious eye irritation. Show this safety data sheet to the attending physician.

5. Fire-Fighting Measures

Suitable extinguishing media: water spray, alcohol-resistant foam, dry chemical or carbon dioxide. The substance is not readily combustible, but fine dust may form a combustible atmosphere; keep away from ignition sources. Wear self-contained breathing apparatus if necessary. Decomposition products under fire conditions may include carbon oxides.

6. Accidental Release Measures

Personal precautions: use personal protective equipment, avoid dust formation and breathing dust, ensure adequate ventilation, evacuate personnel to safe areas. Environmental precautions: prevent entry to drains and surface waters; do not release to the

www.pnpbiotech.com

environment. Containment and cleaning: sweep up without creating dust, shovel into suitable closed containers for disposal. Collect spillage.

7. Handling and Storage

Handling: avoid contact with skin and eyes, avoid formation of dust and aerosols, provide exhaust ventilation where dust is formed. Storage: keep in tightly sealed containers in a cool, dry, well-ventilated area, protected from light and moisture; store away from strong oxidising agents. Shelf life under these conditions: 24 months.

8. Exposure Controls / Personal Protection

No specific occupational exposure limit is established. Engineering controls: local exhaust ventilation at dust-generating points. Personal protective equipment: dust respirator (e.g. N95/FFP2), chemical-resistant gloves, safety goggles, protective clothing. Hygiene measures: do not eat, drink or smoke in work areas; wash hands thoroughly after handling.

9. Physical and Chemical Properties

Appearance	Off-white to pale yellow fine powder
Odor	Characteristic
Melting point	Approximately 254 °C (decomposes)
Molecular weight	228.24
Particle size	NLT 90% through 80 mesh
Solubility	Practically insoluble in water; soluble in common organic solvents
pH	Not applicable (substance practically insoluble in water)

10. Stability and Reactivity

Stable under normal conditions of use and storage. Incompatible materials: strong oxidising agents. Hazardous decomposition: carbon oxides under fire conditions. Avoid dust accumulation to prevent combustible dust atmospheres.

11. Toxicological Information

Based on available data, the substance is not classified as carcinogenic, mutagenic or reprotoxic. The primary hazards are skin irritation and serious eye irritation (Section 2). Adequate toxicological data for a full acute-oral LD50 determination are not available for the substance; appropriate hygiene and exposure controls should be applied. For symptoms, see Section 4.

12. Ecological Information

May cause long lasting harmful effects to aquatic life (Aquatic Chronic 4, H413). Prevent release to the environment. No further ecotoxicity data are available.

13. Disposal Considerations

Dispose of in accordance with local, regional and national regulations. Do not release to drains or the environment. Contaminated packaging should be emptied and recycled or disposed of according to local waste regulations.

14. Transport Information

Transport classification should be confirmed against the applicable dangerous-goods rules for the substance as supplied; the substance is classified as hazardous to the aquatic environment (H413). The fine powder should be transported in sealed, intact containers to prevent dust escape.

15. Regulatory Information

The substance is listed in the U.S. TSCA inventory and is subject to EU REACH where applicable. It is supplied as a dietary-ingredient raw material; regional food and health-product requirements (see the Regulatory Status Statement) apply to its intended use. No specific tariff or trade classification is asserted in this document.

16. Other Information

Revision date: Nov. 03, 2026. The information contained herein is based on the current state of knowledge and applies to the substance as supplied. It does not constitute a warranty of any kind. Users should ensure suitability for their specific application and comply with applicable laws.
