SAFETY DATA SHEET

Stevia Extract 95% Rebaudioside A

1. Identification

Product identifier	**Stevia Extract 95% Rebaudioside A**
Chemical name	Steviol glycosides, purified (principal component rebaudioside A)
Botanical source / part used	*Stevia rebaudiana* Bertoni / leaf
Country of origin	China
Relevant use	Intense sweetener for food, beverage and dietary-supplement manufacture (industrial / professional use).
Supplier	Chengdu PNP Biotech Co., Ltd.

2. Hazards Identification

GHS classification: not classified as a hazardous substance according to the Globally Harmonised System.

GHS pictograms: none. Signal word: none.

The material is a food-grade powder. The principal occupational hazard is dust generation; fine dust may form a combustible dust atmosphere, so dust formation and ignition sources should be avoided.

3. Composition / Information on Ingredients

Substance	**Stevia Extract 95% Rebaudioside A**
Purity	≥ 95.0% total steviol glycosides and ≥ 95.0% rebaudioside A (HPLC, on the dried basis)
Hazards	See Section 2

4. First-Aid Measures

Inhalation	**Move person to fresh air. If breathing is difficult, give oxygen. Seek medical advice if symptoms persist.**
Skin contact	Wash off with soap and plenty of water. Remove contaminated clothing. Seek medical advice if irritation develops.
Eye contact	Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Seek medical advice if irritation persists.
Ingestion	Rinse mouth with water. Never give anything by mouth to an unconscious person. Seek medical advice.

Most important symptoms: irritation of skin, eyes and respiratory tract. Show this safety data sheet to the attending physician.

5. Fire-Fighting Measures

Suitable extinguishing media: water spray, alcohol-resistant foam, dry chemical or carbon dioxide. The substance is not readily combustible, but fine dust may form a combustible atmosphere; keep away from ignition sources. Wear self-contained breathing apparatus if necessary. Decomposition products under fire conditions may include carbon oxides.

6. Accidental Release Measures

Personal precautions: use personal protective equipment, avoid dust formation and breathing dust, ensure adequate ventilation, evacuate personnel to safe areas. Environmental precautions: prevent entry to drains and surface waters; do not release to the environment. Containment and cleaning: sweep up without creating dust, shovel into suitable closed containers for disposal. Collect spillage.

7. Handling and Storage

Handling: avoid contact with skin and eyes, avoid formation of dust and aerosols, provide exhaust ventilation where dust is formed. Storage: keep in tightly sealed containers in a cool, dry, well-ventilated area, protected from light and moisture; store away from strong oxidising agents. Shelf life under these conditions: 24 months.

8. Exposure Controls / Personal Protection

No specific occupational exposure limit is established. Engineering controls: local exhaust ventilation at dust-generating

points. Personal protective equipment: dust respirator (e.g. N95/FFP2), chemical-resistant gloves, safety goggles, protective clothing. Hygiene measures: do not eat, drink or smoke in work areas; wash hands thoroughly after handling.

9. Physical and Chemical Properties

Appearance	White fine powder
Odor	Characteristic, sweet
Melting point	Decomposes above 200 °C without a sharp melting point
Botanical source / part used	*Stevia rebaudiana* Bertoni / leaf
Particle size	90% or more through 80 mesh
Solubility	Freely soluble in water and in ethanol/water (1:1); slightly soluble in anhydrous ethanol
pH	4.5 - 7.0 (1 in 100 solution)

10. Stability and Reactivity

Stable under normal conditions of use and storage. Incompatible materials: strong oxidising agents. Hazardous decomposition: carbon oxides under fire conditions. Avoid dust accumulation to prevent combustible dust atmospheres.

11. Toxicological Information

The substance is not classified as hazardous under the applicable GHS/CLP criteria. It is an intense sweetener of low acute oral toxicity with an ADI of 0-4 mg/kg body weight expressed as steviol (JECFA); no acute-oral LD50 value is stated in the certificate of analysis. Dust is a mechanical irritant to the eyes and respiratory tract. For symptoms, see Section 4.

12. Ecological Information

No ecotoxicity data are available for the substance as supplied. Prevent release to drains and watercourses.

13. Disposal Considerations

Dispose of in accordance with local, regional and national regulations. Do not release to drains or the environment. Contaminated packaging should be emptied and recycled or disposed of according to local waste regulations.

14. Transport Information

Not classified as dangerous goods under the applicable transport regulations. Transport in sealed, intact containers to prevent dust escape and moisture pickup.

15. Regulatory Information

The substance is supplied as a dietary-ingredient raw material; regional food and health-product requirements (see the Regulatory Status Statement) apply to its intended use. No specific tariff or trade classification is asserted in this document.

16. Other Information

Revision date: Nov. 18, 2026. The information contained herein is based on the current state of knowledge and applies to the substance as supplied. It does not constitute a warranty of any kind. Users should ensure suitability for their specific application and comply with applicable laws.
