COMPOSITION & NUTRITIONAL INFORMATION

Magnesium L-Threonate 98%

1. Composition

We, Chengdu PNP Biotech Co., Ltd., declare the composition of the supplied Magnesium L-Threonate 98%, the magnesium chelate of L-threonic acid, supplied as an anhydrous white to off-white powder without any carrier or additive; the 8% figure is the elemental magnesium specification, not a dilution, as set out below.

Component	Content
Magnesium L-Threonate	≥ 98.0%
Related Substances & Ash	≤ 2.0%
Excipients	0
Additives	0

2. Nutritional Information

Nutritional information per 100 g of the supplied ingredient:

Component	Amount per 100 g	Unit
Energy	0	kJ / kcal
Total Fat	0	g
Total Carbohydrate	0	g
Dietary Fiber	0	g
Total Sugars	0	g
Protein	0	g
Salt	0	g
Magnesium	8,000	mg

The article is a mineral chelate containing no protein, fat or digestible carbohydrate, so the macronutrient fields are declared as zero. Elemental magnesium is declared from the assay specification of 7.2%-8.5%, equivalent to about 8,000 mg per 100 g. Loss on drying and residue on ignition are specification items reported in the certificate of analysis rather than as nutrients. Values are typical reference values for the ingredient as supplied.
